## Expanding Locking Pliers

### American Style & European Style

ITEM NO.	PA15-305XJ	5" / 125	23-45
	PA15-307XJ	7" / 175	28-60
	PA15-310XJ	10" / 250	33-76

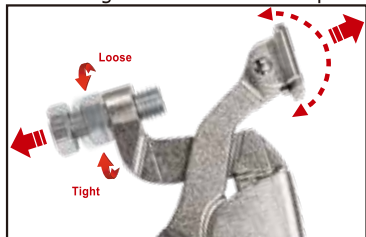

### Easy Release Style

ITEM NO.	PA15-305XJAET	5" / 125	23-45
	PA15-307XJAET	7" / 175	28-60
	PA15-310XJAET	10" / 250	33-76

### \*Jaw supply steady expanding power

Flexible expanding size setting by expanding screws and locking nut allows various expanding actions.

## 4th Automatic Generation Locking Pliers

### Lock automatically without jaw adjusting

The automatic locking grip can provide a strong grip on your working pieces automatically without adjusting the wideness of the jaw.

### Pressure setting

The knurling tension screw can easily set desired clamp pressure from slight to extreme depending on your needs.

### Easy release operation

Brand New structure of easy release handle improves the operation more quickly and more easily

TPR material grip provides comfortable holding touch, and grain-shape design effectively prevent slipping as use.

ITEM NO.	PA15-T305BET	6" / 150	25
	PA15-T310BET	10" / 250	38

ITEM NO.	PA15-T310RBET	10" / 150	38
----------	---------------	-----------	----

ITEM NO.	PA15-T306BET	7" / 175	25	4.5 / 7
----------	--------------	----------	----	---------

ITEM NO.	PA15-T306RBET	7" / 230	50	71	68
	PA15-T309CBET	10" / 290	80	71	129
	PA15-T311RBET	11" / 330	72	100	95

ITEM NO.	PA15-T306PBET	7" / 230	50	70	58
	PA15-T309CPBET	10" / 290	80	70	120
	PA15-T311PBET	11" / 330	72	100	85

## Locking C-Clamps EUR Series

### European Style

ITEM NO.	PA15-403CL	8" / 195	70	30
	PA15-403CLW	9" / 230	70	60
	PA15-405CLW	9" / 230	150	60

### \*Quick Size Adjusting

Flexible clamping size directly setting by adjusting bolts allows various clamping actions

### \*Extreme Clamping Capacity

Constructed of heat-treated Chrome Molybdenum alloy steel gives maximum durability gripping power. Max. clamping capacity 70-150mm.

### \*U Shaped Arms

U shaped arms allow to clamp variety shapes materials while providing greater versatility.

Suitable for welding, wood working, carpenter, engineer, and etc.

### \*Squeeze To Lock, Pull Up To Loosen

Unique design of European handle.

Simply squeeze the handle to lock and pull up the release lever to loosen.

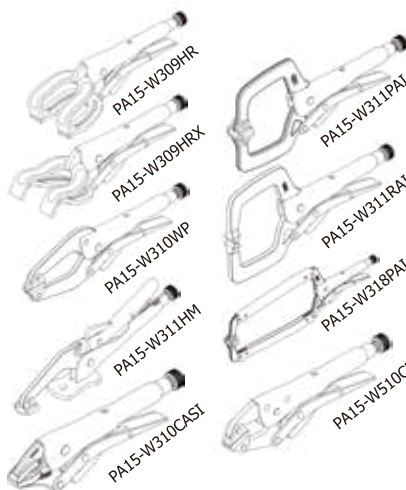

## Classic Locking Pliers with Scangrip Handle

### \*Especially for Scandinavia market!

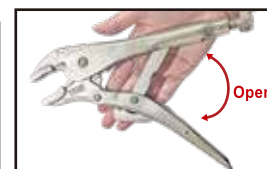

Use a hex wrench for quick adjustments

ITEM NO.	PA15-W310CASI	10" / 250	48
	PA15-W510CP	10" / 250	30
	PA15-W311RAI	11" / 275	88
	PA15-W311PAI	11" / 275	89
	PA15-W309HRX	10" / 280	65
	PA15-W311HM	11" / 275	90
	PA15-W310WP	10" / 280	100
	PA15-W318PAI	18" / 455	208
	PA15-W309HR	10" / 255	31-60

### \*One hand operation, it is convenient to use.

Classic handle design meets customers' habits to use this plier series. By press the handle to open the locking pliers and squeeze to clamp object. Just press the handle to open quickly!

## Axial Welding Pliers

Self-locking multi-grip plier Flat jaws set at 90° angle

ITEM NO.		
PA15-518T	7" / 175	15

Self-locking multi-grip plier Angled jaws

ITEM NO.		
PA15-522J	8" / 200	10

Self-locking multi-grip plier Straight jaws

ITEM NO.		
PA15-512L	7" / 175	15

## 90° Corner Woodwork Clamp

American Style

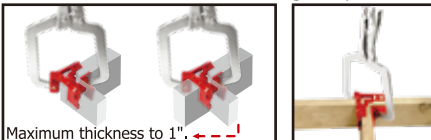

ITEM NO.		
PA15-309CS	9" / 255	1" / 25.4

NEW

**\*Quickly assemble and fix the 90° shelf**

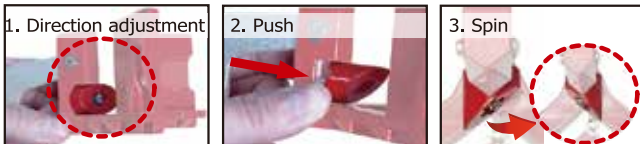

Suitable for 90° angle and "T" shaped joints. Pull the drawer box into the aligned position quickly and easily.

Maximum thickness to 1"

**\*Two-way switching**

Patented strut can be flipped quickly and easily to work on next corner.

**\*The Cutout allows to put pocket screw**

The cutout in the pads allows to put pocket screws in place without undoing the clamp.

## 2-Way Right Angle Woodwork Clamp

American Style

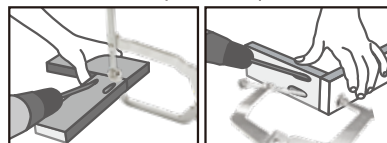

ITEM NO.				
PA15-309TF	9" / 250	38~65	2" / 50	

NEW

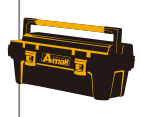

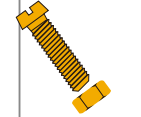

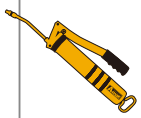

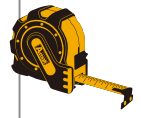

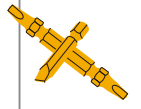

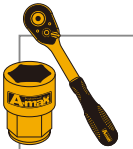

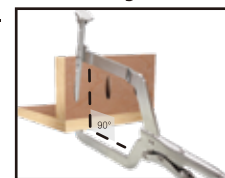

**\*Strong Adjustable Clamping Force**

This clamp can work as Right Angle Clamp & C-Clamp. The steel pin on this clamp is shaped to fit snugly into a pocket hole, securely anchoring one workpiece against the other for easy assembly.

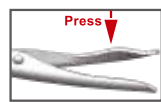

**\*Multi-purpose 90°**

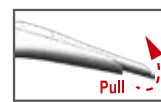

2-way clamps can work as right angle clamps or C-Clamps, which keep pocket holes secure and square at 90° degrees during project assembly and effective clamping.

## Bet Series Locking Pliers

### Easy Release Style

ITEM NO.	PA15-310BET	10" / 250	53

**NEW**

### \*Ergonomic handle

Is not only to consider the product shape, but also focus on the steady holding force and comfort. In this case, it will improve the work efficient and prevent the damage due to tired holding during long-time work.

### \*Improved construction

Reduce 20% handle-holding margin to release the bearing of hand.

### \*Adjustment Knob

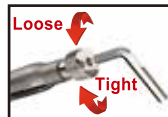

Adjustment Knob with inner hex holes permits to speed the fitting of expanding size by cooperating with L-key.

### \*Release Force Saving

Not only save 60% release force during the work, but also relax the tired holding of hands.

### \*Clamping Force Upgraded

User could hold the pliers firmly due to the 20% holding-gap saving. And the clamping force increases 15% compared to 1st generation.

## Large Jaw Locking Pliers

### American Style & European Style

ITEM NO.	PA15-312LJ	12" / 300	96

### Easy Release Style

ITEM NO.	PA15-312LJAET	12" / 300	96

## Large Jaw Locking Pliers

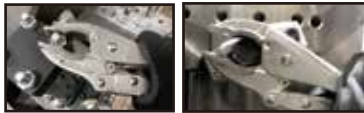

### American Style & European Style

### European Style

ITEM NO.	PA15-306MPE	10" / 250	55-110

Bent (Angle: 23°) model is ideal for a limit space

## Locking Tools Holder

**NEW**

ITEM NO.	PA15-G410	137	75	25

### \*Washer

Washer ensures a firm hold on almost any work surface, without leaving scratch on it.

### \*Holding Mechanism

Quickly and easily attaches to workbench or other flat surface. Hold 5-inch, 7-inch and 10-inch locking pliers.

### \*Adjusting Screws

Thanks to the 4 adjusting screws, even 5-in locking pliers can be put in without gap.

### \*Triangular Eye Thumb Lock Bolt

Thumb grip to help fastening. It can be used powerfully with a screwdriver.

With 2 or more installed, sticks, bars, tubes or pipes in long length and even in different thickness can be easily clamped steadily. Then you can do the welding, sawing, or cutting work efficiently.

## Automatic Screw Removal Locking Pliers

ITEM NO.				
PA15-T305M	6" / 150	31	Ø3-9.5	

With Wire Cutter

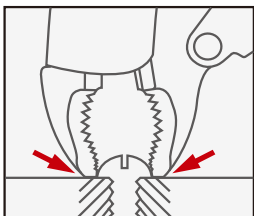

### \*Vertical serrations in the center

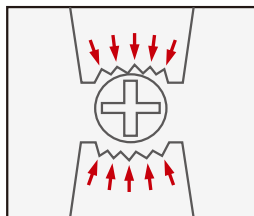

Pliers have specially shaped jaws with vertical and arch-lined serrations, which results in NO slippage when twisting the screw out.

### \*Grip & remove a stuck screw

The unique tip shape also supports low-head screws(truss screws). Since the vise mechanism grabs and locks the screw, even a tightly tightened screw can be turned with less force.

The vertically-serrated gripping surface holds screws firmly and securely for problem-free extraction.

Specially-designed teeth generate gripping power, so no slippage.

## Screw Removal Locking Pliers

### Easy Release Style

ITEM NO.				
PA15-305MET	5" / 125	26	Ø3-9.5	
PA15-307MET	7" / 175	41	Ø7-12	

With Wire Cutter

### How to use

#### Step 1:

Loosen the adjusting screw to make the jaws fitting the diameter of screw.

#### Step 2:

Fasten the adjusting screw 90°~180° clockwise.(Half a turn to the right)

#### Step 3:

Squeeze the handles to lock the jaws. Turn and loosen the screw.

### \*Grip & remove a stuck screw

The unique tip shape also supports low-head screws(truss screws). Since the vise mechanism grabs and locks the screw, even a tightly tightened screw can be turned with less force.
